

State Website of the Year Award

In today's fast moving world, it's important to be able to communicate with our members and to foster awareness of what we do among the public; websites are just one of several tools we might use to work towards those goals!

Judging for the best website award, is necessarily a bit subjective in nature, but there are a few things we have looked for in particular when judging over the last few years...

Overall appearance

- Are the images sharp or fuzzy?
- Is the information current?
- Is it easy for visitors to find their way around the site and to find important pages or information?
- Does the material fit on the page?

Involvement

- Are parish activities portrayed?
- Are community activities demonstrated?

Links – resources –

- Besides being a convenient resource for our Brothers, these help show our unity of purpose and support for our Church. Do our links include, for example, our parish, diocese, State website and Supreme website?

Privacy

- Is there information publicly available on the site which would be better kept private, e.g. minutes of meetings, newsletters swollen with names, phone numbers and/or email addresses, etc.?
